# A Glance at the Patriotic History of the American Jew

Address of July 4, 1933, to the Annual Convention of the Jewish War Veterans of the United States, Atlantic City, N. J., by Samuel Untermeyer, over National Broadcasting Company's Nation-wide Hook-up.

NEVER before in their peace-time history have the Jewish War Veterans met to celebrate this glorious, inspiring and usually joyous anniversary under such heartrending conditions. Never before have they been forced to sit helplessly by as witnesses to the crucifixion of their unoffending brethren upon an altar of bigotry and hatred that was supposed to have been driven into oblivion and destroyed centuries ago by the onward march of civilization and the brotherhood of man.

When we reflect that of these 600,000 German Jews (which includes men, women and children, old as well as young), upon whom these diabolical tortures and persecution are being perpetrated, 96,000 were actually at the front; 2,000 of them made "the supreme sacrifice," and 35,000 were seriously wounded—many thousands of them permanently—in the cause of their ungrateful country, one begins dimly to visualize something of "man's inhumanity to man," when human beings are turned into beasts of prey by the wild fury of brutal fanaticism.

Every page of Germany's history and of ours, and of that of other countries, bears eloquent, unimpeachable witness against the foul libels behind which these savages seek to hide this crime against civilization—that the Jew is not the most loyal, patriotic and self-sacrificing citizen to his own country, wherever he may be.

As proof of this let us take a brief glance at the part the Jews have played in our own history. We may well hold up our heads, for the record is one of which we are and should be intensely proud. It demonstrates that at all times patriotism has been the guiding star of the American Jew. In all the wars of the Republic his deeds have cast their fragrance of heroism and sacrifice over

every page of the military and naval annals of the Nation.

Beginning with the Revolutionary period: Manuel Mordecai Noah, Isaac Franks and Major Benjamin Nones were aides-de-camp on the staff of General Washington. Nones was a Frenchman fired by the sentiments that enlisted Lafayette. A private under Baron Kalb of Major commanding a legion composed in large measure of Hebrews. At Beaufort, Lushington's corps of Jewish volunteers fought under General Moultrie with indomitable valor.

When Robert Morris appealed for funds to aid the colonists in the Revolutionary War it was a Jew, Haym Salomon, who most generously responded. He immediately subscribed \$300,000 to the cause, and in all gave \$658,000, not a penny of which has ever been paid to his heirs. That was a great fortune in those days.

Within the last few years there has been considerable discussion in Congress over a Bill introduced in the Senate to repay the heirs of Haym Salomon the money loaned by him to finance the fight against the British. Accompanying the Bill was a Senate resolution enumerating Salomon's patriotic donations to Robert Morris. Besides his contributions, he supplied Congressmen and officers of the Army and of the Government with the means of defraying their ordinary expenses, among whom were Jefferson, Madison, Lee, Steuben, Mifflin, Simpson, Wilson, Monroe and Mercer. He sacrificed his fortune for the cause.

Will it be said that such a man was not a patriot? He was captured by the British, thrown into prison and died before he himself could take any step

## Editorial

### LET'S PUT THE JEWISH VETERAN OVER

With this issue of THE JEWISH VETERAN, the editorial reins are entrusted to a new staff.

They are planning to make THE JEWISH VETERAN one of the country's outstanding service magazines. Starting with the next issue, a vast improvement in make-up and content will be noticeable.

A new cover design is being created; financial status of THE JEWISH VETERAN. A magazine cannot exist on and readability; the reading matter will be carefully edited to insure peak interest at all time. In a word, your official organ will be a radically new magazine.

So much for esthetic improvement.

Equally important, though, is the financial status of THE "JEWISH VETERAN." A magazine cannot exist on its subscriptions. It is the volume of advertising that makes for success or failure. And that is the department in which this organ has always been woefully lacking.

Based on the accepted reader-gauge used by publishers, our paid circulation of ten thousand insures forty thousand readers. Have you a product or service that you want to sell to this many live prospects? Do you know anyone that wants to gain the attention of forty thousand receptive readers?

If you want to sell it, tell it in the columns of THE JEWISH VETERAN. Rates are extremely low—returns gratifyingly high. You owe it to yourself, as well as your official magazine to tender your best support.

We wish the new staff every success. But wishing isn't enough. With advertising and Editorial co-operation, let's all put our shoulders to the wheel and boost our publication over the top in the big way.

### CERTIFIED YEAST ENDORSEMENT ANTI-NAZI BOYCOTT

The Certified Yeast Corporation, New York, in a fine display of co-operation and sympathy with our efforts to establish and enforce a boycott against German goods, has proclaimed an irrefutable policy that is in complete accordance with our aims.

M. Greenberg, secretary of the Corporation, stated its views in a communication to the Boycott Committee, which contained a resolution declaring that they have discontinued the importation of yeast from Germany and shall pursue their policy of Economic Boycott until the Jews in Germany shall be guaranteed Safety, Equality and Justice.

It is definite action of this sort that will assure success in this mammoth undertaking when many more business concerns take such definite action. It will do much to show the Nazis that persecution of the Jews will not be tolerated by a civilized nation.

In the name of civilization, in the name of the Faith, we call upon every concerned Jew to direct his personal efforts to further accomplishment along these lines. The very thought of the atrocious persecutions to which our German brethren have been subjected makes the blood boil. The stories that seep through the strict censorship that the Hitlerites have established, tell of atrocities that one can well attribute to the middle-age rather than to a civilized people of a modern nation.

To arms! To arms in an economic warfare that shall be as unrelenting as any campaign ever waged in the protection of that Liberty that we consider an inalienable right of every individual. Let us arms in an economic warfare that shall not cease until our objective is attained until German Jewry is accorded the economic, religious and political liberty which it has been so ruthlessly deprived of.

## UNTERMAYER ATTENDS ANTI-NAZI CONFERENCE

The Hon. Samuel Untermayer, eminent New York attorney who addressed us so eloquently during the Atlantic City convention, is as this is written in Amsterdam, Holland, accompanied by our own C. J. George Fredman, where delegates from almost every nation are convening to decide upon ways and means of extending and enforcing the boycott on German manufactures all over the world. Whatever the outcome of the International-Boycott Conference may be, every participating country owes it to his country to carry out the Boycott. Written protests and resolutions have proved unavailing. We of the Jewish community are forced to take drastic measures in order to combat an evil that is shocking civilized people the world over. Leaders of every faith—Protestants and Catholics—have evidenced their willingness to cooperate in overcoming a blot of affairs that is a blot on the fair name of a heretofore respected and adored nation. We call upon all comrades of the Jewish War Veterans of the United States to unite themselves to carry on this fight against medieval bigotry.

## AMERICAN JEWISH LEADERS ACT NOW

The action of the International Boycott Conference in Amsterdam, Holland in adopting a resolution which provides for making the boycott against German services and shipping world-wide is a reality a clarion call for united action in the face of the greatest crisis that has ever confronted Jewry. Samuel Untermayer, president of the Conference, demanded a world-wide economic boycott of Germany, he was not echoing the sentiments of the J.W.V. but those of every Jew who understands the situation correctly. Under the leadership of Mr. Untermayer it is to be hoped that every Jewish organization everywhere will cease protesting and enroll under the boycott program. The J.W.V., which has taken the lead in this campaign, invites the

cooperation of all Jewish leaders to act now. We have received the cooperation of leaders of other faiths. Can the spokesmen of Jewry do otherwise?

## A "NEW DEAL" IN LABOR DAYS!

After four years of increasing unemployment, salary slashes and their resultant suffering, we look forward to Labor Day, 1933 with a new feeling of hope.

Every industry reports re-employment on a huge scale. The edicts of NIRA—that soft-spoken name that indicates the huge resources of the National Industrial Recovery Act—have placed labor and industry on a same basis with one all-embracing sweep of its beneficiary powers.

Millions back to work. . . salaries increased. . . hours cut to spread employment. . . prices rising healthily. . .

Welcome, Labor Day! Again we'll bask in a holiday sun with thoughts unruffled by the worries of yesterday. . . looking forward to a new, bright, workaday tomorrow!

## NOW IT CAN BE TOLD!

Those anecdotes of pre-Armistice days; the amusing incidents—the thrilling adventures—the tragic circumstances of which war is made. . . now they can be told!

How about it? We need your co-operation to make this magazine a lively, interesting record for our members. Literary contributions are solicited. Tell us, tell the world that little story that makes such interesting hearing.

Don't let your literary style—or lack of it—stand in the way. We can't all be Arthur Conrads or Guy Empeys. Write your story just as you'd tell it. We'll publish it and give you credit (but no cash), or if you prefer, it will be inserted anonymously.

We also want snapshots taken "Somewhere in France." Groups of your buddies, war scenes, photos of training or prison camps. . . let us have anything you've got that is interesting, reading or "looking."

# MAKING J. W. V. HISTORY

## A Summary of the Achievements of Past Commander-in-Chief Fredman's Administration

By BERNARD POSTAL

WHEN the history of the Jewish War Veterans of the United States is written a generation hence the name of Past Commander-in-Chief J. George Fredman of Jersey City will loom large, for during his administration from September 1932 to July 1933 the J.W.V. underwent what was probably the most striking and wholesome rejuvenation any organization has ever enjoyed. Seldom has any organization been so inspired and revived by the work of one man as was the J.W.V. by Commander-in-Chief Fredman. Now that he has retired to the ranks after refusing what practically amounted to unanimous re-election, it is pertinent that his achievements in behalf of J.W.V. be recorded for posterity.

The first thing Commander-in-Chief Fredman did on assuming office was to renew publication of the "Jewish Veteran" as the official organ of the J.W.V. For some years the organization limped along without an editorial spokesman and the lack of such a vehicle was sadly obvious. Comrade Fredman had recognized the importance of a magazine issued regularly as a force for unity and action long before he became Commander-in-Chief. During his administration the Jewish Veteran appeared every month. Replete with important news of post happenings, national headquarters' events, reports of Jewish activities the world over, and summaries of important material affecting veterans, the Jewish Veteran has come to be one of the most valuable agencies of the J.W.V., thanks to Comrade Fredman.

Having revived the Jewish Veteran, Commander-in-Chief Fredman set himself to rehabilitating the J.W.V. itself by organizing new posts where none had ever existed and by reorganizing dormant posts. Long before he became Commander-in-Chief, Comrade Fredman, as commander of Jersey City Post, had al-

most single handedly organized four new posts, Bayonne, Newark, Paterson and Perth Amboy. After his election to the office of Commander-in-Chief, he devoted himself strenuously to the organization of new posts. How well he achieved his purpose is indicated by the fact that during his administration 18 new posts in seven states and the District of Columbia were added to the roster of J.W.V. Moreover he laid the groundwork for the establishment of nearly a score of other new posts which when formally installed will greatly strengthen the J.W.V. nationally. The Dept. of New Jersey and the Kings County Council of Brooklyn, N. Y., also came into existence during his administration.

Important as were these achievements along the lines of purely administrative and organizational activities, they pale into insignificance in comparison with Commander Fredman's services in behalf of Jewry. In December 1932 there broke out a series of brutal pogroms in Poland. Forty-eight hours after the attacks started, the J.W.V. through Commander-in-Chief Fredman, was on the job with formal protest against the savage outbreaks. The courageous stand of the J.W.V. in this instance was a pioneer statement and it was followed by other Jewish organizations.

In the middle of March the savage Hitlerite persecution of the Jews of Germany burst on a startled world. Jewish organizations but the J.W.V. were taken unaware by the situation. They held conferences, made speeches and did nothing. Commander Fredman, speaking for the J.W.V., was the only man who had the courage to stand up at a meeting called by the American Jewish Congress and demand a boycott of German goods. It was the only weapon that could be effective against the Nazi pogromists. He was shouted down but his words took root and were followed by other Jewish organizations.

# Jewish News and Views

By J. DAVID DELMAN

Commander, State Dept. of New York

**A SHINING STAR**—The report of the National Encampment of the Jewish War Veterans should have prominent space on this page, because a convention of the Jewish War Veterans is no longer a local matter or a matter which interests only the members of our own organization. The Jewish War Veterans of the United States through its great activity and leadership in Jewish affairs, has become the shining star in the constellation of American Jewry. We have limited space, however, in this column, and so a full report of the Encampment is rendered elsewhere in this issue.

**ARYAN WEAKNESS**—We wish God-speed to the Honorable Samuel Untermyer and to our Past Commander-in-Chief, J. George Fredman, on their voyage to London to attend the World Boycott Conference. Lord Melchett is the President of the newly formed Trades and Industries Council and is devoting practically all his time for the purpose of making the boycott movement successful. This Council is now publishing a weekly newspaper, The Jewish Economic Forum, and reports the latest tidings of Germany's anti-Jewish crusade. The advertisements of this paper show the effect of the boycott movement. Egyptian importers of artificial silk stockings, having ceased to import from Germany desire to get in touch with non-German manufacturers of that product. London wholesalers invite offers from non-German makers of carved wood. Polish importers of graphite, want offers from non-Germans. Cap manufacturers are interested in cap fasteners of non-German origin, and so there are velour hats, glue, groceries and numerous other items. More power and success to these valiant workers for the boycott, for as has been stated, the economic boycott is a weapon that strikes Hitlerism at its weakest point—the pocketbook.

## HOMECOMING OF LORD MELCHETT

Lord Alfred Melchett is the son of a famous Jewish father and a Christian

mother. He has become so infused with love for Jews and Judaism, that recently he formally entered the Jewish fold at a ceremony held in London. We wonder whether Hitler is aware of the number of Jews who have come back to the Jewish fold as a direct result of his abominable treatment of the Jews in Germany. It may be Hitler's aim to cut off German Jewry from the rest of the World and to destroy them spiritually and economically, but he will never separate them from Israel.

**THE "MODERN" CRUSADE**—It would be useless to enumerate in detail the various ways by which the Nazi Government attempts to make life miserable for the Jews in Germany. Jews cannot advertise in the Berlin telephone directory. Jews are being constantly dismissed from every line of endeavor in Germany; Jewish physicians have been dismissed from the Medical Union, and more than 100 of them have been expelled from the Funds, and their names have been deleted from all health guides. Jewish lawyers have been deprived even of the privilege of associating themselves with pure Aryan lawyers; even relief from the Nazi Government, an order having been issued to all banks where these Jews are on deposit not to make any payment on these accounts; a system of propaganda has been set up against Jews in every country in the world; a Nazi order has even made the inhuman announcement that for every German dying in Russia, ten Jews will be hanged in many. But let us state frankly and openly to this modern Haman that nothing will avail him. He has alienated from Germany the friendship of every liberty-loving person, and country in the world, and will thereby cause his downfall, and the downfall of his Government. Jews will continue to fight their rights without pause.
