

Will there be any shortage... ten years from now?

It's very unlikely that there'll be a scarcity of things to buy in 1956.

But *you* might be faced with a much more distressing shortage—a shortage of **MONEY TO BUY THINGS WITH!**

Fortunately, this is a shortage that a persistent and foresighted man can avoid. It's one you, *personally*, can do something about.

How? By the simple and painless process of buying U. S. Savings Bonds regularly... through a Payroll Savings Plan.

If you've been buying bonds that way —**KEEP IT UP.** If you haven't, start buying them now and—**KEEP IT UP.** And, above all, *hold on to the bonds you've bought.*

Result: In 10 years, you'll get back \$4 for every \$3 you've invested. And you'll get it back in nice lump sums as your Bonds come due.

You're not short of cash now. Why take a chance on being short in the future? *Keep buying Bonds.*

NOTE TO READERS

Readers will note that this issue of the Jewish Veteran is dated July-August. This does not indicate that an edition of the magazine is being skipped. It is only a method of rectifying a condition which has been forced upon us by the exigencies of the limited paper supply and other manufacturing difficulties that arose out of the war. Because of paper, transportation and other problems, so much time was lost over a period of two years that eventually the magazine was appearing a month late. In order to rectify this condition, to bring the magazine out on time in the future and to meet the necessary postal regulations, this method is being used to bring our schedule up to date. The next issue of the Jewish Veteran will be dated September and will reach members and subscribers in the early part of the month.
